Roberto Busi
Full professor of Technical and urban Planning at the University of Brescia. Director of the Department of Civil Engineering, Architecture, Territory and Environment and of the Centro Studi Città Amica. He coordinates the Research Doctorate in Places and Time of City and Territory. He has always investigated environmental subjects linked to city and territory. He has also dealt with the security of the pedestrians in urban environment according to the re-qualification of public open spaces.

Scira Menoni
Associate professor at the Politecnico of Milan, teaching Urban planning, environmental analysis and assessment and Planning techniques in risky areas. Field of specialization technological and natural risks prevention, looking particularly at non-structural measures and giving a specific stress to land use planning and urban development control. She also teaches at the Geneva University, lecturing in the postgraduate program Analysis and Management of Geological Risks.

Adriana Galderisi
Researcher at the "Dipartimento di Pianificazione e Scienza del Territorio" of the University of Naples Federico II, Professor of Town Planning at the Faculty of Engineering of the University Federico II; Ph.D. in Urban and Regional Planning. The research activities are addressed to the requalification of urban environment, focusing on the relationships between urban mobility and urban quality and on the vulnerability of urban systems to natural and na-tech events.

Andrea Ceudech
Architect, Ph.D in Urban and regional Planning at the University of Naples Federico II where he is contract professor at the Faculty of Engineering. His research activity at the "Dipartimento di Pianificazione e Scienza del Territorio" of the University Federico II is focused on the setting up of methods for the vulnerability assessment of urban systems to natural hazards and on the deepening of the relationships between mobility and urban planning policies.

Pierpaolo Bonerba
Ph.D in Demography and Geographic Areas Economics at University of Bari, is professor at "MASTER OFICIAL de Desarrollo Local e Innovación Territorial" at University of Alicante and researcher at The Regional Center for Road Safety of Puglia Region and scientific consultant for Bari Municipality in the Research staff for the Strategic Plan of Metropoli Terra di Bari - BA 2015.

Romano Fistola
Researcher at the University of Sannio (Benevento), Faculty of Engineering. In this University he teaches: Town and Country Planning, Town Planning and Territorial Management, Geographical Information Science. He is professor at the Ph. D. course of “Engineering of the territorial systems and networks” at the Faculty of Engineering of Naples. He carries out research activities on Innovation Technology and territorial change, GIS, sustainable planning and Urban Risk.

Mariano Gallo
Associate Professor of Transportation Engineering at University of Sannio, Italy. He received a MS in Civil Engineering from University of Naples Federico II and a PhD in Transportation Engineering from University of Rome “La Sapienza”,Italy. Professor Gallo’s primary research interests are in transportation network design, public transportation analysis and multimodal transportation systems.
Rosa Anna La Rocca
Architect. PhD in Regional and Urban Planning at University of Naples “Federico II” where is temporary professor. She collaborates with Department of Planning and Regional Science of the University of Naples principally referring to tourist development impacts on urban transformations and waterfront evolution in city-port relationship.

Luca Marzi
Architect, designer and governments consultant on urban accessibility and usability. He carries out research activities at the Department of Construction and Design Technologies “Pier Luigi Spadolini” of the University of Florence. He is in charge of monitoring the restructuring activities of the of Policlinico di Careggi. He has published articles on “design for all” and on the control and monitoring of the social and health architecture.

FIABA Onlus - Massimo Pannacciulli e Giuseppe Trieste
FIABA has been founded in order to pull down the cultural and physical barriers created by isolation, marginalization and social unfairness. A universal accessibility creates the condition to a better quality of life. For everybody. M. Pannacciulli is copy editor of articles regarding FIABA activities and FIABA’s Mission. G. Trieste is Olympic Champion, founder and co-President ANTHAI O NLUS, founder and President FIABA O NLUS.

Cristina Calenda
She has got a degree in Environmental Science in 2005 and she is Philosophical Doctor in Government of Territorial Systems at the University of Naples Federico II. Her research involves Strategic Environmental Assessment applied to territorial plans and programmes and the application of Geographic Information System to the planning and the Government of Territory.

Andrea Salvatore Profice
PhD student in Hydraulic, Transport and Territorial Systems Engineering. His main research topics are natural and technological risks and environmental evaluations (EIA, SEA) in urban contests. Within the DPIST he works for some National and European Research Project (SCENARIO, ENSURE) concerning sustainable development and environmental risks and address to prevention and mitigation of such risks.

Giuseppe Mazzeo
Researcher of the National Research Council (Institute of Studies on the Mediterranean Systems in Naples). Professor of Urban Planning Technique at the Faculty of Engineering, University of Naples Federico II. It carries out research activity at the Department of Planning and Science of the Territory (University of Naples Federico II) in the territorial planning, strategic environmental assessment and urban regeneration fields.

Rosaria Battarra
Researcher of the National Research Council (Institute of Studies on the Mediterranean Systems in Naples). Since 1989 she has been cooperating with the “Dipartimento di Pianificazione e Scienza del Territorio” of the University of Naples Federico II, carrying-out research into urban redevelopment and especially on the tools and procedures for the implementation of the plans.

Daniela Cerrone
Engineer, Ph.D in Urban and Regional Planning at the University of Naples Federico II. She carries-out research activities for the “Dipartimento di Pianificazione e Scienza del Territorio” of the University of Naples and acts as a consultant for local government organizations regarding projects and policies for the start-up, promotion and development of the urban trasformation and the deepening of the relationships between mobility and urban planning policies.

Enrica Papa
Engineer, Ph.D in Urban System and Civil Network Engineering at the University of Naples Federico II, where is professor of Urban and Mobility Planning. She is also consultant for Bari Municipality in the Research staff for the Strategic Plan of Metropoli Terra di Bari - BA 2015, for the sustainable mobility themes.
